

BISRAT SERUR

Silver Spring, MD | serurbisrat@gmail.com | (227) 282-0219
Portfolio: bisratasfaw.github.io/Portfolio-HTML-CSS-1

PROFESSIONAL SUMMARY

Generative AI Developer, Computer Science graduate, and current Master's student with hands-on experience building AI-powered applications, intelligent automation systems, machine learning models, data analytics platforms, and decision-support tools. Proven ability to rapidly prototype products, analyze complex datasets, optimize workflows, and develop scalable AI-driven solutions. Strong background in Python, AI workflows, prompt engineering, machine learning, data processing, software engineering, and product-focused innovation. Entrepreneurial builder experienced in transforming ideas into functional systems while collaborating across technical and business domains.

CORE COMPETENCIES

Generative AI • Prompt Engineering • AI Product Development • Machine Learning • Intelligent Automation • Data Analytics • Python Development • AI Agents • Workflow Optimization • Technical Problem Solving • Rapid Prototyping • Product Innovation • Research & Experimentation • Software Engineering • Cross-Functional Collaboration

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, C++, C#, C

AI & ML: Machine Learning, Prompt Engineering, NLP Fundamentals, Computer Vision, AI Workflows, Model Evaluation, Data Processing

Development: REST APIs, Git, GitHub, Linux, Android Development, Full-Stack Development

Data: SQL Server, PostgreSQL Concepts, MySQL Concepts, Data Analytics, Data Visualization

Systems: Linux/UNIX, Distributed Systems, Debugging, Software Architecture

Professional: Technical Documentation, Customer Communication, Product Thinking, Agile Collaboration

AI PROJECTS

Trading AI Algorithm Development & Market Intelligence Platform

- Built an AI-driven market intelligence system for forecasting, data analysis, and trading decision support.
- Developed automated pipelines for data ingestion, feature engineering, optimization, and model evaluation.

AI Heatmap & Consumer Usage Intelligence Platform

- Developed AI-powered heatmaps and behavioral analytics tools to identify patterns and

actionable insights.

- Designed reporting systems supporting business intelligence and strategic decisions.

Personalized Newsletter Scraping & AI News Feed Engine

- Built automated content aggregation and personalization workflows for tailored news delivery.
- Developed ranking and filtering mechanisms to improve relevance and engagement.

AI Expert Advisor Optimization Platform

- Developed optimization and backtesting workflows for automated trading systems.
- Automated parameter evaluation and performance analysis processes.

Personalized AI Ad Blocking System

- Built intelligent filtering mechanisms to identify and suppress unwanted content based on user preferences.
- Improved browsing experience through personalized classification logic.

AI Investment Advisor

- Developed a financial decision-support platform that generates personalized investment insights.
- Applied analytics and risk assessment methodologies to support recommendations.

AI Dropshipping Advisor

- Built an AI-powered business intelligence platform for product discovery, competitor analysis, and market opportunity identification.
- Automated research workflows to support e-commerce decision-making.

TECHNICAL PROJECTS

Face Emotion Recognition System

- Engineered a computer vision solution for emotion classification using machine learning and image processing.

Social Network Application (Socall)

- Developed an Android-based social networking application with messaging and user engagement features.

Train Management & Dispatch System

- Built a scheduling and dispatch optimization platform using C++ and SQL Server.

Streaming Platform

- Developed a scalable media streaming platform with backend database integration.

PROFESSIONAL EXPERIENCE

Prime Store Trading PLC

- Directed operations, process optimization initiatives, and strategic growth projects.
- Led data-driven decision making and workflow improvements across business functions.

Job Trading PLC

- Managed operational systems, analytics initiatives, and customer-focused process improvements.
- Implemented scalable workflows and performance monitoring strategies.

Bisrat Asfaw Imports

- Coordinated logistics, supplier relationships, inventory management, and operational optimization.
- Improved reliability and efficiency through process redesign and analytical problem solving.

EDUCATION

Master of Science in Computer Science (In Progress)

University of the Potomac

Bachelor of Science in Computer Science

HiLCoE School of Computer Science and Technology

ADDITIONAL VALUE

- Entrepreneurial leadership experience building and scaling multiple ventures.
- Strong interest in Generative AI, AI Agents, Intelligent Automation, and Consumer AI Products.
- Experience independently researching, prototyping, and deploying technical solutions.
- Intermediate Chinese language proficiency.
